Paulo Loureiro

Vanessa Strong

New Business:

The Bicycle and Pedestrian Advisory Committee requests public input on improving the safety of the crosswalk at the intersection of King Street and Goldsmith Street. In the long term there will be a re-design of pedestrian crosswalks associated with the 550 King Street Common Project. In the interim, BPAC would like to make improvements to the existing pedestrian crossing to improve safety. The BPAC is considering the following as possible solutions:

- Additional signage (such as yield triangles)
- Repainting the crosswalk to have a 3 D effect and/or change the crosswalk color to yellow
- Add crash barrel islands
- Deactivate the current crosswalk and direct pedestrians to the adjacent Jennifer Street and Great Road crosswalks
- Other suggestions

Meeting adjourned at _____ p.m.

Scheduled Next Meeting: February 17th, 2026
