Subject: RE: [Littleton MA] Healy Corner Testing (Sent by Brian Beam, brian@bostonframeworks.com)

Hi Brian,

Thanks for your email. I believe that all the materials that have been submitted are posted to the website.

If I understand correctly, the most recent soils information and map that are posted to the website are in the "Added April 2020" section of the Healy Corner project page.

Thanks again for your email, it is part of the record for this project, and will be added to the file.

Maren

Subject: [Littleton MA] Healy Corner Testing (Sent by Brian Beam, brian@bostonframeworks.com)

Hello mtoohill,

Brian Beam (brian@bostonframeworks.com) has sent you a message via your contact form (<https://www.littletonma.org/user/42/contact>) at Littleton MA.

If you don't want to receive such e-mails, you can change your settings at <https://www.littletonma.org/user/42/edit>.

Message:

Hi Maren,

I hope all in your life are well.

Can you guide me to the up to date soils and perc. testing for the Healy Corner project? I see that you have a memo from Bruce Ringwall attesting that each lot can support septic but I don't see the testing results. As you may recall, several meetings ago the board made testing of each lot a requirement. Mr Ringwall even references this testing in his memo. Please forward the testing results or let me know where to find it on the project page.

I request a reply to this email and that you enter the email chain in the project file so the board can review it.

Thank you and all best,

Brian Beam
