**\*\*THIS EMAIL WAS SENT BY AN EXTERNAL SENDER\*\***

Maren - could you please send this to the Planning Board members? Thank you!

Dear Planning Board members,

At the last Northern Bank Public Hearing there was a concern raised regarding drainage on Robinson Road. Attached is a picture of the main driveway for 28 and 30 Robinson Road. There are also two pictures of the drain pipe (located next to driveway) which connects to the wetland area.

I am hoping you can address my additional concerns:

- \* Where will it be documented regarding the "not able to develop zone" on the green space frontage on Robinson Road?
- \* Continuation of the bank's sidewalk from the corner of Robinson Road to the end of their property line at 25 Robinson Road (this is for safety reasons).
- \* Documentation that there will not be parking on Robinson Road during construction. All vehicles need to park on job site.

Thank you,

(RESIDENT)
