Request for Determination of Applicability**

**Littleton Conservation Department**

**August 27, 2024**

## **Request for Determination of Applicability**

### **Lake Shore Drive Japanese Knotweed**

Multi-year herbicide treatment of Japanese knotweed (*Fallopia japonica*) is proposed for a 170' x 20' patch of Japanese Knotweed along Lake Shore Drive. This patch, which sits on an upland shelf along the lake, has been routinely mowed by the Highway Department but continues to spread. Going forward it is expected that there would continue to be mowing early in the season to suppress growth, and then applying selective herbicide treatment using a backpack sprayer and stem applicator with glyphosate (Lesco Prosecutor Pro; foliar). The application will only target Japanese knotweed, and can be used as a comparison site to nearby efforts which are being conducted with multiple cuttings and removal of stems. No in-water work will be needed or occur. Application is done when there is minimal wind and no rain in the forecast.

The treated stand will be mapped using GPS. Follow up monitoring will include photographs of the stand and description of plant species that are returning. Currently it is assumed that there will be two years of follow up treatment if necessary,

The attached figures show the site locus and photographs of the knot weed stand. A butter information is also attached.

### Littleton Wetland Protection Regulations

#### Waiver Request Requirement Information (Section 1.4)

Date: 8/27/2024 Applicant/Owner: Town of Littleton

Map/Lot: U12-14-0 Project Address: Lake Shore Drive

In order request a waiver, the following provides a guidance for required information (attach additional text, plans, photos or graphics if needed):

Project purpose and need: Without interference Japanese Knotweed will continue to spread and colonize areas of the bank along Long Lake

What specific action(s) is the Waiver being asked for? Glyphosate- based herbicide treatment of 3,400 square feet of Japanese Knotweed adjacent to the bank of Long Lake

How is the action(s) in the public interest, necessary to avoid a taking, necessary to prevent a safety hazard or water dependent? Japanese Knotweed is an invasive species that aggressively colonizes areas and pushes out native plant species, thus threatening biodiversity

How is the action(s) consistent with the intent and purpose of the Bylaw? Preservation of native plant species and the ecological value they provide

Existing and proposed site conditions (ie, impervious, lawn & disturbed areas) (square feet; show on plan): Existing is a 3,400 square foot patch of Japanese Knotweed. Proposed is an area consisting of native vegetation

Existing and proposed distances of land uses from wetland resource areas (show on plan):

3 ft from Long Lake

Analysis of less environmentally damaging practicable alternative: None

Proposed short term and long term protection of wetland resource areas: Herbicide will not be applied when winds or rain are forecast.

Is the site in a Zone I, II or III (groundwater) or Zone A, B or C (surface water) water supply area: No

Are there critical, unique or sensitive resource areas in the area (ie, NHESP mapped habitat, vernal pools, unusual wetland types, cold water fisheries, outstanding resource waters, Core Habitat, Conservation land, etc); show on plan: No

Other factors for consideration: None

M.G.L. Chapter 131: Section 40 ..... "Any person filing a notice of intention with a conservation commission shall at the same time give written notification thereof, by delivery in hand or certified mail, return receipt requested, to all abutters within one hundred feet of the property line of the land where the activity is proposed, but not limited to, owners of land directly opposite said proposed activity on any public or private street or way, and in another municipality or across a body of water. When a notice of intent proposes activities on land under water bodies and waterways or on a tract of land greater than 50 acres, written notification shall be given to all abutters within 100 feet of the proposed project site. For the purposes of this action, "project site" shall mean lands where the following activities are proposed to take place: dredging, excavating, filling, grading, the erection, reconstruction or expansion of a building or structure, the driving of pilings, the construction or improvement of roads or other ways and the installation of drainage, sewerage and water systems, and "land under water bodies and waterways" shall mean the bottom of, or land under, the surface of the ocean or an estuary, creek, river stream, pond or lake. When a notice of intent proposes activity on a linear shaped project site longer than 1,000 feet in length, notification shall be given to all abutters within 1,000 feet of the proposed project site. If the linear project site takes place wholly within an easement through another person's land, notice shall also be given to the landowner. Said notification shall be at the applicant's expense, and shall state where copies of the notice of intention may be examined and obtained and where information regarding the date, time and place of the public hearing may be obtained. Proof of such notification, with a copy of the notice mailed or delivered, shall be filed with the conservation commission." .....
