re:

Property: Harwood Avenue, Lots 1 & 2, Map R-07, Parcel 1  
Owner/Applicant: Peter DeCarolis – DECA Corp.  
Engineer: Goldsmith, Prest & Ringwall, Inc.

Hi Maren,

I have a conflict with the meeting tomorrow night, so I won't be able to attend.

I saw on the plans that they are going to have to remove a section of the stonewall for a driveway. While I don't like that, I see that they may have to. I just want to put my two cents in for making sure that they leave as much of the stonewall alone as possible. Anything that is dismantled but can be put back up, I'd rather have in the current style - as a "farm" stonewall, not an engineered, perfect one.

With the recent growth in town and building along our scenic streets, it behooves us to keep as many historical elements as we can so we don't completely lose our heritage. We deemed these roadways as scenic for a purpose. I would not be in favor of granting an exemption.
